
Henderson 'H' Series Dock Bumper

H290 HENDERSON BUMPER ITEM NO. 03-H290

For commercial or private docks, the Model H290 dock bumper offers exceptional performance combined with a streamlined profile. Made of resilient PVC compound engineered to be both weather and fungus-resistant, this tough, affordable dock bumper stands the test of time without deteriorating. Its unique 4+3 design provides four angled columns and three air-cushioned chambers to absorb heavy impacts. Easy to install on dock or pilings, the Model H290 bumper is available in white in a standard length of 8 feet, packaged ten per carton. Can be special ordered in other lengths (minimum order applies).

H290A HENDERSON BUMPER ITEM NO. 03-H290A

For commercial or private docks, the Model H290A, is a smaller version of the H290 Model. This dock bumper offers exceptional performance combined with a streamlined profile. Made of resilient PVC compound engineered to be both weather and fungus-resistant, this tough, affordable dock bumper stands the test of time without deteriorating. Its unique 4+3 design provides four angled columns and three air-cushioned chambers to absorb heavy impacts. Easy to install on dock or pilings, the Model H290A bumper is available in white in a standard length of 8 feet, packaged ten per carton. Can be special ordered in other lengths (minimum order applies).

H300A HENDERSON BUMPER ITEM NO. 03-H300A

With its exclusive 5+4 design, the Model H300A dock bumper offers the superior impact resistance that makes it the first choice in today's marine applications. Five heavy-duty solid columns and four spacious vertical air chambers give the Model H300A its strength – and its specially formulated PVC compound gives it exceptional flexibility and resistance to weather and fungus attack. The end result is bumper that's tough enough to stand the test of time – and affordable as well. H300A is available in white in a standard length of 8 feet, packaged eight per carton. Can be special ordered in other lengths (minimum order applies).

H390A HENDERSON BUMPER ITEM NO. 03-H390A

This heavy-duty dock bumper is designed to safeguard both watercraft and docks from damaging effects of repeated impacts. The Model H390A dock bumper features an exclusive 5+4 design that protects larger boats, with five solid columns and four air-cushioned chambers. Made of resilient, fungus-resistant PVC compound, the Model H390A withstands even the harshest weather for years to come. Easy to install on docks or pilings, it is available in white in a standard length of 8 feet, packaged eight per carton. Can be special ordered in other lengths (minimum order applies).

For orders less than full cases, a 25% "split case" charge will apply.
