
Dock Wheel Assemblies

These dock wheels are molded from non-yellowing, extra thick white marine grade vinyl with sealed inflation that will not scuff boat surfaces. The heavy-duty mounting brackets are hot dipped galvanized. (Bracket drawing details available upon request).

DOCK WHEEL ASSEMBLY – 10” DIAMETER
ITEM NO. 04-01 (Corner Mount)
ITEM NO. 04-01S (Side Mount)

Bracket has four 3/8” mounting holes and the axle is 1 7/8” diameter which assures maximum strength under severe conditions. The bracket is designed for corner or side mounting.

DOCK WHEEL ASSEMBLY – 14” DIAMETER
ITEM NO. 4-02

Bracket has eight 3/8” mounting holes and the axle is 2 7/8” diameter which assures maximum strength under severe conditions. The bracket is designed for corner mounting only. A bracket for side mounting is available with a slight up-charge.

Other configurations available. Please call us for details.

DOUBLE DOCK WHEEL ASSEMBLY – 14” DIAMETER
ITEM NO. 04-17

Bracket has eight 3/8” mounting holes and the axle is 2 7/8” diameter which assures maximum strength under severe conditions. The bracket is designed for corner or side mounting.

Other configurations are available. Custom configurations available with drawings. Please call for details.
