
Jim-Buoy Dock Wheel Assemblies

NO. 5000 DOCK CORNER WHEEL ASSEMBLY ITEM NO. 04-03

A giant 12" diameter by 6" high tire provides a substantial cushion in the most troublesome tides, currents or fresh breezes. Finest heavy-duty vinyl wall construction with sealed inflation for years of trouble-free use. The 2" diameter axle housing assures maximum strength under sever conditions. Hot dipped galvanized or epoxy coated steel hardware throughout. Packed one per shipping carton, 16 pounds.

NO. 5000S DOCK CORNER WHEEL ASSEMBLY ITEM NO. 04-04

The same as above except with a straight mount bracket for side mount rather than corner mount. Packed one per shipping carton, 17 pounds.

NO. 5006C DOCK CORNER WHEEL ASSEMBLY ITEM NO. 04-05

Same heavy-duty vinyl construction as the above larger roller but in a 6" diameter by 3" high tire, sized for the smaller boats. All hardware is hot dipped galvanized or epoxy coated steel throughout. Packed six per shipping carton, 14 pounds.

NO. 5006S DOCK CORNER WHEEL ASSEMBLY ITEM NO. 04-06

The same size and construction as the No. 5006C wheel assembly but features a galvanized or epoxy coated steel bracket for mounting on straight edged areas. Packed six per shipping carton, 14 pounds.

NO. 5016 DOCK CORNER WHEEL ASSEMBLY ITEM NO. 04-xx

Wheel diameter is 16".
