
Induthane Wheels

INDUTHANE WHEELS

For applications requiring something beyond what ordinary wheels offer.

Induthane offers:

- Floor Protection – Wheels are non-marking and offer a high degree of floor protection
- Quiet Performance – Noise factor is greatly reduced in comparison to other hard tread materials, resulting in a quiet, smooth roll.
- Lightweight Construction – Highly durable, heavy capacities. One-piece construction eliminates bond failure.
- Wearing Qualities – Superior abrasion resistance up to five times that of a similar size rubber wheel.
- Rollability – Up to 25% easier than many other urethane wheels and up to 50% easier than rubber tired wheels.
- Material Properties – Manufactured with highest quality pre-polymers produced by various national suppliers, assuring consistent and maximum physical properties.

ITEM NO.	DIMENSIONS	CAPACITY	WEIGHT
07-25P	6" diameter x 2" width x 3/4" axle size	1000 lbs	1.5
07-29P	8" diameter x 2" width x 3/4" axle size	1200 lbs	2.5
07-30P	10" diameter x 2" width x 3/4" axle size	1400 lbs	5.5
