
Jim Buoy No. 9000 Light

JIM BUOY NO. 9000 LIGHT

The Jim Buoy No. 9000 Light is a handy, long lasting lighting system that is totally waterproof and visible for up to 1 mile. It requires little or no maintenance under normal use and its rugged plastic construction is impervious to the most severe weather conditions and salt water corrosion. The batteries (2 Alkaline D-Cell, with exception of white light which requires 3 D-Cell, not included) and bulb are GUARANTEED 1 FULL YEAR from the date of purchase to NEVER need replacement!

All functions are electronically controlled, remaining OFF during daylight and automatically turning ON at night. The light flashes 40 milliseconds per flash and 30 flashes per minute and is visible for up to 1 mile.

Available in Red, Amber, White and Green.
